# A HUMIDIFIER + PURIFIER FOR ALL SEASONS

Choosing a Venta Airwasher is a life choice. You feel more alert, you sleep better, you get sick less often. Pet odors and static electricity are reduced, as are many of the allergens that can trigger reactions.

## THE RIGHT CHOICE FOR A BETTER LIFE

Thirty five years ago the Head of Venta invented the word Airwasher – and invented the category. With all of the life changing benefits your Airwasher will give you, we're sure you'll find a Venta is more than just a humidifier, more than just a purifier – it's a wellness investment for life.

# THE GREAT AIR CON

Air conditioning can dry your room air out as badly as turning on your room heating during winter. Worse, it can leave you with the same dry air problems – difficulty concentrating, headaches, dry skin, and irritated eyes.

A Venta Airwasher combats all of these effects, year in year out.

Fact: Every night you lose weight and most of that weight is water, either lost through perspiration or the water vapour in your breath. No wonder many of us complain about waking up not feeling refreshed.

Room heating in winter and air conditioning in summer also adds to this dehydration, leading to disturbed or unrefreshing sleep and a dull, fatigued, 'outside of yourself' feeling.

But sleeping in an Airwashed room is a different experience. You wake up feeling alert. Your thinking is sharper and concentrating is easier.

On fan setting one, the Venta Airwasher is whisper quiet, you'll hardly know it's there.

Whoever you are, you'll find an Airwashed sleep leaves you feeling refreshed and alert, thinking sharper, thinking better.

A good night's sleep leads to a positive day.

# WASH YOUR POLLEN ALLERGIES AWAY

Living with Seasonal or Perennial Allergic Rhinitis is miserable. It disturbs sleep, impairs concentration and often makes work difficult. In extreme cases allergy sufferers have to take Cortisone.

## CREATE AN ALLERGY FREE ZONE IN YOUR HOME

Today many allergy sufferers have testified how their Venta Airwasher has helped them reduce their medicine intake, sometimes even discontinued it completely. Run your Airwasher during sleep time and you'll breath pollen free purified air. Your body can recover and recharge, leaving your immune system stronger for the next day.

# WASH YOUR AIR PURE

## VENTA'S UNIQUE ORIGINAL TECHNOLOGY

The Airwasher fulfils two purposes: It humidifies dry air while simultaneously purifying it. Dry indoor air is drawn into the appliance and passes through the disc stacks rotating in water. The air is literally washed. Even the smallest particles are trapped in the water. At the same time pure water evaporates on the exchanger surfaces, which is widely recognized as the best method of Cold Evaporation.

Cold Evaporation offers decisive advantages. The air is automatically properly humidified. There is no need to worry about over-humidifying or lime deposits, and no need for Lime Cartridges.

The Venta Airwasher was the first appliance to use the principle of humidifying and purifying air for homes and offices without using Filter Pads. The Venta Airwasher is hygienic, simple to use, and easy to clean.
