# NATURAL, EASY LIVING

Life throws new challenges at you every day. Your thoughts are occupied by lots of concerns: the here and now, the future, your family and yourself. So your home should be an oasis where you can switch off and feel good. The new Venta AeroStyle Airwasher is an especially effective way to boost air quality. It creates healthy humidity and naturally reduces harmful substances in the air. What's more, it adds a touch of style that perfectly complements any modern interior design.

BREATHE DEEP. BREATHE EASY.

DISCOVER THE NEW **AEROSTYLE** AIRWASHER.

# PURISTIC STYLE, PURE AIR

There have always been good reasons to choose Venta Airwashers. The AeroStyle adds cool good looks to the equation. The model fits seamlessly into today's lifestyle and will continue to enhance your home decor in years to come.

## **At-a-glance display**

The clearly structured touch display on the top of your AeroStyle consists of a digital indicator area surrounded by icons for easy, intuitive control.

Four speeds, automatic, sleep and standby modes – all you need to know at a glance. The current humidity is shown in the centre.

## **LED colour control by app**

Simply use the Venta app to change the colour of the LED light band.

### **Flowing lines**

No sharp angles or edges. With the AeroStyle, we've redefined the characteristic Venta ribbed design. A new aesthetic of horizontal lines creates a streamlined look.

### **Elegant light band**

The contemporary design of your AeroStyle is underlined by an unobtrusive LED light band which you can switch on or off as required. It lights up during operation and flashes when the water level is low.

**venta**

# YOUR BENEFITS:

- Healthy air humidified to an optimal 40–60%
- Hygienic cold evaporation without humidifier mats or filters
- For use with tap water without chemical additives
- Reduction of pollen and house dust particles
- Harmful substances in the air naturally reduced at an indoor humidity of 40–60 %
- Low-maintenance with special Venta hygiene disk
- Digital hygostat monitors and controls relative humidity
- Interactive touch display
- Quiet operation
- Optional app for remote control

## Innovative evaporation

Each individual disk of the new VentWave™ 3D disk stack is based on a principle found in nature. Just like stomata on the underside of a leaf, thousands of tiny openings ensure that far more water molecules evaporate in the same time than on a flat surface.

## Clean hygiene disk

Our Venta hygiene disk minimises cleaning of your AeroStyle, softens tap water, ensures hygienic humidification – and removes the need for chemical additives. **The efficient combination of 3D disk stack and hygiene disk is unique and patented by Venta.**

## App control

You can control your AeroStyle directly on the appliance itself, or add the optional WiFi/WLAN module. Use the Venta app on your smartphone (free for Android or iOS) to check and adjust the humidity in your rooms – even on the go.

# PREMIUM AIRWASHER TECHNOLOGY

Even an ingenious invention like the first Airwasher developed by Fred Hitzler can be improved when smart and dedicated engineers put their minds to it. Now, the innovative, patented technology in the AeroStyle ensures faster\* humidification and more efficient natural reduction of harmful substances.

\* Compared to the Original LW45 or Comfort Plus LW45.

## Focused airflow

The AeroStyle concentrates the airflow, which increases the flow rate, minimises turbulence and accelerates humidification. It also channels harmful substances from the indoor air more directly onto the disk stack.

For rooms up to 90 m<sup>2</sup>

Air humidified to an optimal  
40–60%

Reduction of pollen  
and house dust particles

Natural reduction of airborne  
pollutants (at an indoor  
humidity of 40–60%)

Interactive touch display

WiFi/WLAN app control  
(optional)

# IT STARTED WITH A BRILLIANT IDEA

In 1981, Venta's founder Fred Hitzler invented the Airwasher and revolutionised the market. He recognised that indoor air is often much too dry and also contaminated with harmful substances. His solution was the principle of trapping air impurities in water and simultaneously humidifying the air.

## **Here's how the Venta principle works**

A fan directs the ambient air into the water-filled Airwasher, where it travels through specially arrayed disk stacks. Hygienically clean air evaporates from their surfaces into the room. Simultaneously, the disks trap harmful substances such as dust or pollen, which are then washed off in the water and collected in the Airwasher.

FILL WITH WATER,  
SWITCH ON, RELAX.  
**SIMPLY INGENIOUS.**  
**INGENIOUSLY SIMPLE.**

## **40-60% optimal humidity**

Heating removes moisture from the air in rooms. The same applies to hot summer weather. That can irritate eyes, mucous membranes and skin. Dry air has also been shown to increase susceptibility to allergens and infections. A Venta Airwasher helps ensure year-round healthy humidity!

”

He said it best himself:

**People should always be able to breathe  
fresh air, even indoors.**

“

**Fred Hitzler**  
Venta founder

# MARKET LEADERSHIP DRIVEN BY QUALITY

Venta-Luftwäscher GmbH in Weingarten, Germany, is one of Europe's leading manufacturers of filterless, combined humidification and air purification appliances for indoor use (source: GfK, Panelmarkt July 2020). Our products are bestsellers in Germany, Switzerland, Austria and the Netherlands.

THE SECRET OF OUR SUCCESS:  
**PRINCIPLES YOU CAN TRUST.**

## **Unique**

The Venta method of humidifying indoor air with water and simultaneously removing airborne harmful substances.

## **Easy**

Venta appliances are robust, extremely reliable, user-friendly and very easy to clean.

## **Efficient**

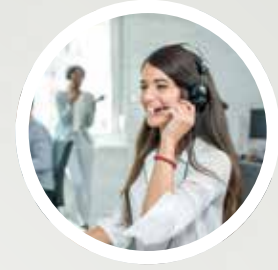

Sustainability is important to us. That's why we produce in Germany, select materials and packaging responsibly, design our appliances for low energy consumption and ensure housings and practically all components are recyclable.

**Venta products** are developed with the customer in mind.

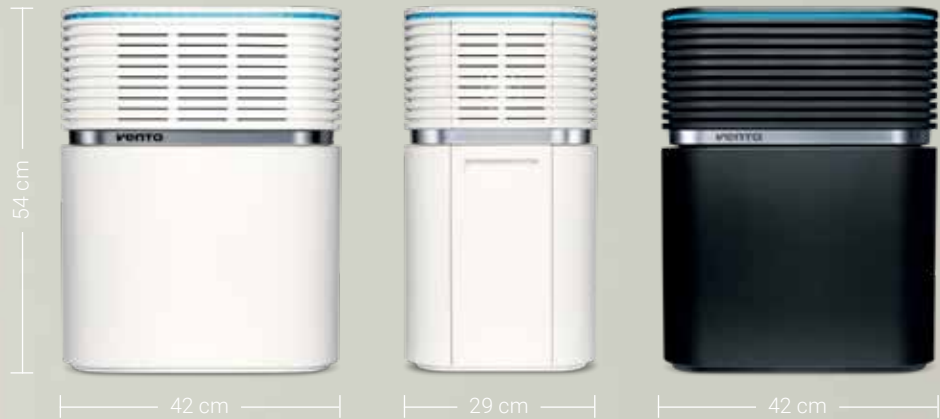

Our customers choose Venta products not because of aggressive advertising, but because of proven quality and performance.

**Venta is staffed by problem-solvers** committed to providing top Venta service down to the last detail.
